Idaho Industrial Commission (IIC) Announcement

IIC EDI Claims Release 3.0 Trading Partner Tables, Version 1.9, Available for Download

Date: October 23, 2017

IIC has posted the EDI Claims Release 3.0 Trading Partner Tables, Version 1.9 that are immediately available for download at <https://iicedi.info/requirements>. The 'Requirement Tables Change Log' describes the changes to IIC's Requirements. We do not anticipate any further changes to the EDI Claims Release 3.0 Trading Partner Tables prior to implementation on November 4, 2017.

Highlight of Changes on V1.9:

Please see the Idaho Track Change Log for the complete details on the changes. These changes are the results of feedback based on testing by the trading partners and IIC.

- Remove edit for Error Message 035 (Must be greater than or equal to DN0056 Initial Date Disability Began) to DN0088 Benefit Period Start Date.
- Added edits to prevent invalid SSN patterns to be reported.
- Corrected the Technical Condition to the MC on the FROI ERT and SROI ERT for DN0057 Employee Date of Death.
- Edit for Error Message 110: Date Must be \geq Jurisdiction Implementation Date for DN0031 Date of Injury will not be enforced because there will be claims that trading partners are filing on and after IIC's Implementation Date 11/4/2017 whose injury dates will precede 11/4/2017.
- IC will not apply edit 035 (DN0056 MUST BE \geq INITIAL DATE DISABILITY) on DN0088 Benefit Period Start Date if DN0056 Initial Date Disability Began has the AR requirement code and is blank.
- IIC SROI AN Sweep Note: If latest accepted report is MTC EP or MTC ER (Excluding MTC 02 or AN) with DN0085 Benefit Type Code 240 then MTC AN will have the same edits as MTC EP or ER (See DN0085, DN0088, DN0089).
- Additional changes.

If you have any questions related to Idaho EDI Claims Release 3.0 for First Report of Injury (FROI) and Subsequent Report of Injury (SROI), please email iicedi@iso.com.
