Idaho Industrial Commission (IIC) Announcement

IIC EDI Claims Release 3.0 Trading Partner Tables and Implementation Guide, Version 2.5, Available for Download!

Date: May 05, 2020

IIC has posted the EDI Claims Release 3.0 Trading Partner Tables, Version 2.5 (Revision Date: 05/04/2020, Effective Date: 10/19/2020) which are immediately available for download at <https://iicedi.info/requirements>. The 'Requirement Tables Change Log' describes the changes to IIC's Requirements.

The IIC EDI Implementation Guide, Version 2.5 is also available for download at <https://iicedi.info/guide>.

Please see the Idaho Track Changes Log for complete details. These changes are the result of feedback received from trading partners and IIC.

Highlights of Trading Partner Tables Changes on V2.5:

- The IIC requires the **Policy Number Identifier [DN0028]** to be reported consistent with the NCCI proof of coverage filings. *Example:* Policy number filed by carrier WCXF25897135 must be reported exactly; do not add or remove leading characters or insert spaces. ***The IIC urges trading partners to initiate this change now as the next version released will implement rejections for filings not reported correctly.***
- The IIC will accept **MTC AB** filings for concurrent benefit payments.
- The IIC will accept **MTC Px** filings for partial suspensions.
- The IIC will accept **MTC PY** reporting **NS** for lump payment of benefits outside of a lump sum settlement.
- The IIC Implementation Guide has been updated to clarify the process for acquiring claims from another claim administrator. *See Section G of the Guide*

If you have any questions related to Idaho EDI Claims Release 3.0 for First Report of Injury (FROI) and Subsequent Report of Injury (SROI), please email iicedi@iso.com.
